

(7 gauge) "pure" silver electrodes

The SilverLungs Generator utilizes a pair of very large (7 gauge) silver electrodes based on (99.99%) pure elemental silver. The 4th "9" of purity ensures you are guaranteed to produce the purest silver solutions possible.

Each silver electrode comes mirror polished with no sharp edges - ensuring there is an even electrical current flow between each electrode. This promotes consistency in particle sizes during the electrolysis process.

The heavy gauge of the silver electrodes, combined with a very large *silver-to-water* contact area, ensures a long life-span before needing to be replaced and also ensures that only the smallest particles are produced.

These statements have not been evaluated by the FDA. While we present information suggesting benefits of colloidal/ionic silver, we cannot in any way recommend that you attempt to treat yourself with our devices or solution except under the guidance of a physician, and that you never seek to use silver-based supplements from any manufacturer as anything other than an adjuvant to conventional medical care. We do not seek to diagnose or treat any medical condition, only to provide the highest quality products and silver supplements in a marketplace saturated with solutions and devices spanning the full spectrum of quality, workmanship, and safety. Although we do not want to deter you from using silver-based products and supplements, health and wellness should be approached with a level head and plentiful information. We encourage you to consider the research and articles provided on our web site and to discuss the potential benefits of silver with your physician as an adjuvant to your current health regimen. To ensure that you and your doctor can make the best decisions regarding your health and well-being, we are happy to provide additional information to consumers and healthcare professionals alike.
