

Why do you need a laser pointer?

A high-powered laser pointer is an indispensable tool for checking the quality of your silver solutions. The presence of large and undesirable silver particles will reveal themselves easily with a high-power laser pointer. This is a very useful tool when creating your silver solutions and highly recommended. Batteries *are* included when purchased through our online store.

The SilverLungs Generator has been carefully engineered to create extremely clean and consistent silver solutions that are absent of large, undesirable particles - yet there is nothing more assuring than a quick visual inspection before bottling and storing your solution for later use.

These statements have not been evaluated by the FDA. While we present information suggesting benefits of colloidal/ionic silver, we cannot in any way recommend that you attempt to treat yourself with our devices or solution except under the guidance of a physician, and that you never seek to use silver-based supplements from any manufacturer as anything other than an adjuvant to conventional medical care. We do not seek to diagnose or treat any medical condition, only to provide the highest quality products and silver supplements in a marketplace saturated with solutions and devices spanning the full spectrum of quality, workmanship, and safety. Although we do not want to deter you from using silver-based products and supplements, health and wellness should be approached with a level head and plentiful information. We encourage you to consider the research and articles provided on our web site and to discuss the potential benefits of silver with your physician as an adjuvant to your current health regimen. To ensure that you and your doctor can make the best decisions regarding your health and well-being, we are happy to provide additional information to consumers and healthcare professionals alike.
